Jamaican Canadian inducted into Immaculate's Hall of Fame

By Neil Armstrong,
Freelance Editor at the Gleaner Media (Canada) Inc.

Heather Bubb-Clarke usually likes being in the background providing her creative ideas that are usually implemented in projects but recently she was in the forefront at an event celebrating alumnae of her alma mater, Immaculate Conception High School, and one of Jamaica's business leaders.

A multi-talented and multi-faceted individual, she was among seven people who were inducted into the 2019 ICHS Hall of Fame on March 23 at the Jamaica Pegasus Hotel.

"It's an honour to be inducted. It also means that people have recognized what I have done and contributed to my school," says Bubb-Clarke who was recognized for her contribution to the arts, social services and voluntarism – the only inductee for three categories.

Only one other person in the history of the Hall of Fame – this was the fourth biennial benefit banquet, one of the largest fundraisers for the school -- has been recognized in three areas.

Bubb-Clarke has been on several committees in various capacities, such as assistant vice president, advisor, graphic designer and creator of the web-site of the ICHS Toronto Chapter.

She was also involved in major fundraising for the food and nutrition lab and participated in many conference calls to brainstorm ideas for various initiatives.

The late Kay Baxter, a former consul general of Jamaica at Toronto, was one of the individuals who drew her out into the Jamaican community.

There was a fundraiser for a little boy who needed a kidney and at the time Bubb-Clarke had just created Live Wire Disco thus becoming one of the

first Jamaican female disc jockeys in Toronto.

She noted that she has been giving back for over forty years serving as vice president for Arts and Culture Jamaica Inc. and a founding member. When it was founded by Baxter it was called Jamaica Cultural Committee and Bubb-Clarke was the treasurer.

Heather Bubb-Clarke

The organization's popular fish fry event was also her creation, and so too was P.A.C.E. Canada's Strawberry Tea annual fundraiser which at the first event raised over \$40,000, that was considered a tremendous achievement then.

Bubb-Clarke was also the one who named the Alliance of Jamaican Alumni Associations and over the years she has received many pacesetter awards.

"I'm just not only recognized by my peers on the alumni for giving back to the school but also to my community at large."

She says her mother, Carmen, and father, Baxter, now deceased, would say, "That's Heather's second nature to give back, she doesn't think about it; she just says yes," and her mom would tell her that she is not getting paid.

She would assure her mother that it is all right, "I'm putting myself out there; people know what I'm capable of," says Bubb-Clarke whose younger sisters, Roma and Judith, also attended ICHS.

It was never for remuneration, she says, it has always been her second nature to do things to help someone.

Congratulation ICHS Wolves—At Girl's Champs

Greetings to The Sisters of ICHS Community!

I'm humbled, honored and in high-spirits to assume the role of president of an amazing association. I will be serving as the President of the Toronto ICHS Alumnae Association for the next four years.

I'm profoundly grateful to my predecessor, Mrs. Carol Case, for her leadership and outstanding contributions to the association. Carol has worked tirelessly to oversee the building of a modern state-of-the-art Food & Nutrition lab at the school.

Via the support of the newly expanded executive members, we'll continue to abide by the ICHS mission-statement thus dedicating ourselves to providing an enriching environment where Christian values are promoted and exemplified. A warm welcome to the new members, I look forward to your contributions

of great ideas over my tenure as president.

Special thanks also to our past board members and those who are returning to serve for another four years. I admire your passion to serve and to give back to our beloved Alma mater.

The year has gotten off to a great start with the well-attended, well-executed, ICHS Hall of Fame event at the Jamaica Pegasus Hotel on March 23, 2019. Evidently, the event was well-received by virtue of the crowded banquet room. My personal 'VERY WELL DONE!' to the HoF committee members and volunteers who made it the best gala ever.

Ms. Heather Bubb-Clarke (our chapter's official photographer) was one of the seven individuals who were inducted in this year's Hall of Fame. On behalf of all of us, I would like to extend my congratulations to Heather and all the other recipients of this prestigious award.

While in Jamaica, we also attended the official opening ceremony of the Food & Nutrition lab with great fanfare. The entertainment for the evening was provided by the school's steel band. The lab is exceptionally beautiful! I was impressed with the layout of the space, the appliances and equipment (including the plated donor wall décor at the entrance). Walking through the lab, looking at the workstations, I understood that a part of our vision was realized. This became possible only by the generous donations from our members, families, friends and supporters of ICHS. "BRAVO" ...what was seemingly impossible was made possible.

After several years of mentoring and nurturing the young ladies of Immaculate, Sister Angella is now set to enter a different phase of her life. Via a bitter-sweet emotional speech, Sister announced, to the wider ICHS community at the gala, her retirement effective December 31, 2019. I would kindly ask you to keep Sister Angella and the school in your prayers as our beloved Alma mater goes through this transition period.

During the next four years, with the help of the executive committee members and the wider ICHS community, the following items are things we would like to achieve:

1. A Call to Action:

- The focus is to recruit and retain members. We are embarking on a recruitment campaign under the theme slogan "Growing to strengthen our Sisterhood". We are looking to go beyond the GTA region and to become visible on provincial and national levels. The chapter has taken the first step by establishing a toll free 1-800 number for members to get involved remotely.

2. Collaboration:

- To develop global partnerships with all the chapters working together, sharing ideas and resources for the long-term sustainability of the school's infrastructure. Implementing this partnership will significantly reduce the burden on any individual chapter.
- Identifying partnerships outside of the association to build strength through collaboration.

In closing, let us remember that if each of us brings one person to the association, whether it's a classmate, a sister, a cousin, an aunt or a mother, we not only grow in numbers but also in our resources.

Thanks,

Novelette Graham-Hart, CIM
President of ICHSAA Toronto

How wonderful it was to connect with so many members of your Chapter at the official opening of the Food & Nutrition labs and at the Hall of Fame Banquet. I have reflected many times on the journey that took us from conversations about the need to upgrade the labs to creating what we now have. Vision, tenacity, commitment, generosity, collaboration, tears, faith, triumph, love. Those labs will always be a living testimony that nothing is impossible! On behalf of our teachers and students, many thanks to each of you for your contribution.

Permit me to offer a brief report on some of the activities of your little sisters. They are many, and I will focus on the most outstanding non-academic achievements.

Swimming

ICHS won the Mayberry swim meet earlier this month. Another dominant performance and yet another win. The school placing second had 404 points. Six of our students made the national swim team for the 2019 CARIFTA games.

Orchestra

These 80 plus musicians continue to mesmerize audiences. In March they celebrated the 25th anniversary of the ICHS Orchestra with two sold out performances of the Abeng Tour.

Robotics

Minutes ago I received a photo from the staff advisor of the Robotics Club. Our team of G8 and G9 students are competing today at the WRO Robotics Challenge. Robotics competitions are relatively new in Jamaica and our girls intend to make ICHS the team to beat.

Track & Field

So many in Jamaica are still trying to come to terms with the fact that our small team of 32 girls placed 6th at the 2019 Boys & Girls Championships with 81 points. Excelsior placed 7th with 80 points and a much larger team. Over 100 girls teams participated in the championships. Our shot put thrower Danielle Sloley and a 4x100 team competed at the Penn Relays this week. They come back home tomorrow with gold medals in each event!

Sigma Walk/Run

ICHS won trophies for having the largest high school team and for being the largest female team.

Dance Troupe

220 students from different clubs participated. This group has matured over the years and now put on their own show as an annual event. It is something to watch students audition, hoping to gain membership. There are about 80 girls in the troupe.

Each of you can support our students by praying for them. This complex world provides many challenges! The young ladies are intelligent, talented and gifted and we are so proud of them.

Sr. Angella

Bubb-Clarke attended Immaculate in the late 1960s where she developed her love of the arts. During her final year at ICHS Commercial, she was appointed to the student council by Sister Maureen Clare Hall.

After graduating from Commercial, she was offered a position at the Canadian High Commission in Kingston, Jamaica. She started as a secretary in the Canadian immigration department and within three months she was promoted to head the filing and processing department.

Ten months later, Bubb-Clarke decided to immigrate to Toronto, Canada on July 4, 1975; went back to Jamaica and eventually returned to Canada joining Scotiabank in April 1976 as a teller at its main branch.

After two years there, she was promoted to customer service clerk and later assigned as the estate officer.

Having done seven years of service within the branch environment, she transferred to their corporate offices and joined Scotia Mortgage Corporation, moving up the ranks to management level.

During her tenure there, she received three Service Level Awards and an Award of Excellence for assisting and providing input on the development and implementation of the bank's first Imagining of Mortgage Documents across Canada.

The imagining process consisted of scanning, computer retention of mortgage documents as well as the processing and printing of the discharge within assigned time. As a result of this system, payout and discharge of mortgages were processed and delivered in less than two weeks.

Her team was able to reduce extremely high volumes to a record-breaking low within four months.

Bubb-Clarke's abilities were recognized by upper management and she was later promoted to lead another imaging project within the corporation.

During her time at Scotiabank, Bubb-Clarke earned a reputation for developing systems and procedures that resulted in fast processing and delivery of various products for customers.

After 39 years and many accolades, she retired on her 60th

Cecile Salter, Dr. Donnette Daley, Janice Ho Lung, Senator Don Wehby, Mariame McIntosh Robinson, Heather Bubb-Clarke, Dr. Judith Bennett-Murray, and Dr. Donia Scott

birthday in 2015.

A photographer and painter, she also gives back to Alpha Academy, the school her mother attended and Immaculate through her video work, photography and deejay skills.

"The principle that I show to the community is the love for my fellow-man and that is one of the foundations that Immaculate grooms, it says always shoot for the stars, our motto, so basically when I do some-

thing I do it with all my heart and soul and do it to the best of my ability."

She said the other principles the school taught her were leadership, giving back, and loyalty.

With the birth of Live Wire Disco in the 1970s, she began playing at many house parties for friends and acquaintances and this expanded to include church dances and weddings.

Her photographic works are displayed in the Jamaica 50th anniversary of Independence limited edition commemorative book, "When Ackee Meets Codfish." She also sat on the board of the cultural and art committee for the Jamaica 50th celebration in Toronto.

She is currently working to bring awareness to the path of reconciliation between Canada's Indigenous Peoples and non-indigenous people.

The other Hall of Fame inductees were: Judith Bennett-Murray (education), Janice Ho Lung (education), Donia Scott (science & technology), Donnette Staas (science & technology), Cecile Salter (voluntarism), and Senator Don Wehby received the G. Raymond Chang Award.

Ginelle Brown -Student of Food and Nutrition in Sixth Form

the newly renovated Food and Nutrition laboratory.

Looking back to my grade seven years when I first entered this institution, the Food and Nutrition Lab was always a marvel to me. My love and passion for this subject was manifested here in these very labs. However, after years and years of use, utensils were worn, the equipment began to pose a challenge to operate and somehow the lab just seemed too small for the hustle and bustle of food enthusiasts who were always present. The promise of a new FN lab was the long awaited dream. So much so that when I was informed that I would not be able to do this subject in Sixth Form, I was very distraught to the point of tears at the thought of never ever getting the opportunity to experience this renovation. Luckily the situation was reviewed and the new lab did not miss me. I believe that I have spent more time in the new Food and Nutrition lab than I do on the Sixth Form Block. I'm not sure if it's the spacious environment or the exquisite layout but something has me hooked. The fancy new equipment, utensils and facilities have made practicals and exams a breeze. Not to mention the new presentation apparatus which have made class times more fascinating. No matter what it is, I'm sure all FN students can agree that just by standing in the lab, we all feel a sense of pride.

We would like to express our deepest gratitude to all those who worked hard to make this remodeling a success. We would also like to thank all teachers in the Home Economics Department for facilitating the use of the new equipment. And last but definitely not least, I would like to thank the late Mrs. Aba Polson

The Student's Perspective of The New Food and Nutrition Lab

It gives me great pleasure to speak on behalf of the ICHS student body to show our appreciation for

for giving me the opportunity to experience this phenomenon.

I know that this lab will be able to benefit not only the students of today but also the students of tomorrow. As Bethenny Frankel once said "Your diet is a bank account. Good food choices are good investments."

Ginelle Brown
Student of Food and Nutrition in Sixth Form

My Personal Experience

Food and Nutrition has been a passion of mine for the past two years. I have always managed to do my best in my classes at school and in my first external exam. In August of 2018, when I had my interview for Sixth Form, I chose to do three subjects alongside the compulsory Communication Studies course; French, Spanish and Food and Nutrition. I was however informed that the French and Food and Nutrition classes would have a clash and I was instructed to choose French (seeing that it matches with my dream profession of being a Translator) and select another subject other than FN. This situation caused me to break down in tears as I could see no other way to fulfill my sixth form era without being a student of Food and Nutrition. However, the late Mrs. Aba Polson made some arrangements to the timetable which allowed me to join the current grade 13's Food and Nutrition class. I have since been forever grateful for this opportunity because I believe that this subject has taught me a lot of new things. In fact, the investment of my time, energy and effort has helped me to attain not only a grade one with a straight A profile in the subject in my CSEC examination but also to attain the first position in the Regional Merit List Ranking determined by the Caribbean Examination Council. I am grateful for the opportunities provided for all students to be able to progress in this field.

Our
40th Anniversary

ICHS ALUMNAE ASSOCIATION
TORONTO CHAPTER

Established on June 19, 1978

Celebrate... Good Times!!

ICHS
160th Anniversary

What a Year it was!! We Made the Impossible, Possible –Thanks to You

**IMMACULATE CONCEPTION HIGH SCHOOL ALUMNAE ASSOCIATION
(TORONTO CHAPTER)
2018 – YEAR IN REVIEW**

The ICHSAA Toronto Chapter celebrated its 40th Anniversary and the 160th Anniversary of ICHS by Puttn on the Ritz at its Dinner Dance in May and Celebrating Good Times at its Luncheon in September, both events were a resounding success.

Sr. Maureen Clare, Toronto Chapter Executive and members "Celebrate Good Times"

Since its inception in 1978, the ICHSAA (Toronto Chapter) has supported its beloved Alma Mater by raising funds through various events. Recent initiatives include donating computers, printers, lawn mower, equipment for a physics lab, text books for Grades 12 and 13, providing scholarships and paying school fees for financially strapped students, funding scholarships and awards for excellence in music and the sciences.

Our most daunting venture - Project 2014 and beyond was the Rebuilding of the Food and Nutrition Labs that were in total disrepair.

Everyone thought this was an impossible task. (Photo March 2017)

Under the slogan "Rebuilding for the Future" the chapter launched many fund-raising campaigns. It was, however, our membership in the Alliance of Jamaican Alumni Associations enabling us to give tax receipts that stimulated an influx of

donations making the IMPOSSIBLE..... POSSIBLE. The Toronto Chapter under the leadership of the President, Carol Case and Treasurer, Katy Sani, spearheaded, researched and managed the project from Canada. The Toronto Chapter, thanks to its members, patrons, Food for the Poor Canada and Jamaica and Nella Toronto, were able to donate all equipment and furnishings (except refrigeration) in addition to partially financing the project. Our major partners – ICHSAA Florida and Jamaica Chapters were joined by the Washington and International Chapters to complete the financing of the Project. Two refrigerators were donated by the New York Chapter. The total project cost was in excess of US\$200,000.00, the largest project undertaken by the joint Chapters of the ICHSAA.

The Rebuilding of the Food and Nutrition Labs would not have been possible without the invaluable, professional Pro bono work of Architect, Alumna, Guila Bernal, Quantity Surveyor, Robert Lee, Project Managers, Peter and Alumna, Racqueline Mair and MEP Engineer, Hugh Gordon. A special thanks ICHSAA Jamaica Liaison, Janet Sharpe, and Contractor Ridsdale Cookes who ensured that the project was completed on time and on budget.

ICHS FOOD AND NUTRITION LABS. dedicated September 5, 2018 Grades 12/13

As Nelson Mandela in his wisdom said..."it always seems impossible until it is done".
